AGENCY'S DISCUSSION AND ANALYSIS

South Carolina Treasurer Curtis Loftis is now in the middle of his second term in the State Treasurer's Office (STO). The Treasurer continues to work tirelessly to enhance services within the State Treasurer's Office and create an environment of openness, transparency, and accountability in government. The Treasurer has also focused on bringing the State Treasurer's Office into the 21st century as it conducts business on behalf of the State. This document serves as a review of the accomplishments of the State Treasurer's Office for fiscal year 2016-2017.

The State Treasurer's Office is responsible for the investment, cash management, and safekeeping of the State's General Fund and restricted funds. The State Treasurer's Office serves as the State's bank, receiving, disbursing, and managing funds from all sources. The State Treasurer's Office coordinates all banking services, structures and administers the State's debt, invests all State funds, manages the Local Government Investment Pool, and administers the Unclaimed Property Program and College Savings Program. The State Treasurer's Office also works and communicates regularly with the three major bond rating firms to maintain high credit ratings that keep the State's borrowing costs low.

The State Treasurer's Office has six major program areas: Treasury Management, Banking, Investment Management, Debt Management, Unclaimed Property, and College Savings.

Treasury Management. The Treasury Management Division is responsible for managing the Statewide Accounting programs, which involves the daily accounting for cash operations of the State, payroll processing and other disbursements on behalf of the State, administration of Aid to Subdivisions, collection and remittance of court fines, and reconciliation of account deposits, in accordance with South Carolina Code of Laws Title 11, Chapters 3, 5, and 13 and Title 14, Chapter 1. For fiscal year 2016-2017, the Division made approximately 4.4 million disbursements, consisting of approximately 1.1 million paper checks and approximately 3.2 million electronic payments, and made 203,452 deposits on behalf of the State.

Banking. The Banking Division manages the relationships with the qualified public depository banks that provide banking services to the State of South Carolina's state agencies and universities to support receipt and disbursement of funds, including specialized services for merchant payment cards and merchant card processing. The Banking Division manages the bank relationships in accordance with South Carolina Code of Laws Sections 11-13-120, 11-13-125, and 11-13-60. The Division performs effective daily cash management functions using modern technology and products in order to maximize funds available for investment. The Banking Division monitors bank balances to ensure State funds on deposit are protected with FDIC coverage or are properly collateralized in accordance with South Carolina Code of Laws Sections 11-13-60 and 6-5-15.

Investment Management. The Investment Management Division manages, in accordance with South Carolina Code of Laws Section 11-9-660, approximately \$16 billion in assets for both the State of South Carolina and local governments, with the priorities of preserving capital, maintaining liquidity, and obtaining the best return within the appropriate risk parameters. The current custodial agent acts as a safe-keeper, holder, and record keeper of these funds.

AGENCY NAME:	State Treasurer's Office		
AGENCY CODE:	E16	SECTION:	98

In addition to active daily monitoring and management by the Investment Management Division, the State Treasurer's Office utilizes the services of an external investment advisor. The investment advisor's role is to advise the Division on investment strategy in order to optimize potential earnings on all of the investments the State of South Carolina holds. The State Treasurer's Office also utilizes the services of an investment consultant for portfolio monitoring activities.

Earnings on General Deposit Accounts' investments were approximately \$182 million. The General Deposit Accounts and other such funds are excess funds that need to maintain liquidity and preserve capital; therefore, cash flows are being invested for short periods of time and should not be compared to long-term investments. These earnings were achieved in spite of continued historically low interest rates, as well as increased demand for securities on the short end of the yield curve.

Debt Management. The Debt Management Division manages the debt for the State and its agencies, institutions, and authorities, in accordance with South Carolina Code of Laws Titles 11, 57, and 59, optimizing the debt structure and ensuring timely repayment of debt when it is due. During the fiscal year, the State Treasurer's Office assisted 9 agencies in the sale of 12 issues for the purposes of academic and housing construction, economic development, and refinancing. In total, the State issued \$569.5 million in general obligation and revenue debt, of which the State will achieve \$86.3 million in refinancing savings from the refunded issues. Further, the State maintained its excellent credit ratings with Moody's, S&P, and Fitch as AA+, Aaa, and AAA, respectively.

Unclaimed Property Program. The Unclaimed Property Program Division continued its commitment to returning unclaimed property to its rightful owners, in accordance with South Carolina Code of Laws Title 27, Chapter 18, by returning over \$30.6 million for 36,436 properties. This is the highest amount of funds returned in a single year since the Program's inception and represents a 32% increase over the previous fiscal year. Also, the Program received approximately \$72.7 million in unclaimed property from business entities, an increase of approximately 13% over the previous fiscal year. The Program returned 131,865 shares of stock at no cost to the claimants.

The Unclaimed Property Holder Outreach and Compliance staff assisted holder companies with compliance matters, reporting requirements, and remittance processes. The Unclaimed Property Program received 16,638 properties totaling over \$2.5 million as a result of the unit's efforts. That property is now available to be returned to the citizens and businesses to which it belongs.

Each year, the State Treasurer's Office calculates the refund liability of the Unclaimed Property Program to determine what amount (if any) is available for transfer to the General Fund. This year, the Program transferred \$15 million to the State General Fund.

Future Scholar College Savings Program. Future Scholar, South Carolina's only tax-advantaged 529 college savings plan, celebrated its 15th anniversary. The Program continued to provide families with a smart, easy way to save for college in accordance with Section 529 of the Internal Revenue Code and South Carolina Code of Laws Title 59, Chapters 2 and 4. At the end of the fiscal year, there were approximately \$3.07 billion in assets under management representing 141,552 accounts. Future Scholar is now in the fifth year since launching new Direct and Advisor products with lower fees and investment minimums as well as new and expanded investment products. Future Scholar experienced a 45% increase in new sales during calendar year 2017 over calendar year 2016.

AGENCY NAME:	State Treasurer's Office		
AGENCY CODE:	E16	SECTION:	98

In conjunction with National 529 Day, Future Scholar launched the fifth annual Future Scholar 529 Day PalmettoBaby Grant Program. All babies born in South Carolina on May 29, 30, and 31, 2017 were awarded the opportunity to receive a \$5,290 grant into a Future Scholar account. The Program was privately funded by Columbia Threadneedle.

Once again, Future Scholar's Direct plan received top accolades from Morningstar and was recognized by third-party research firm SavingforCollege.com as a national leader. Future Scholar's Direct and Advisor programs ranked in the top quartile in the nation for investment performance for three- and five-year returns, and the Direct plan was ranked as the second lowest-cost plan in the country.

Tuition Prepayment Program. Although the Tuition Prepayment Program (TPP) was closed to new participants in 2008 by the General Assembly, 5,486 existing account owners are still actively participating in the Program. The State Treasurer's Office continues to administer and monitor the Tuition Prepayment Program. The Program has been operating under an actuarial deficit since 2001. The State Treasurer's Office receives an annual actuarial report that tracks the Program's unfunded liability and keeps the General Assembly apprised of the ongoing legislative financial obligation to the Program. The report is made available to both the public and the General Assembly. As of the end of fiscal year 2016-2017, the Tuition Prepayment Program continues to have an unfunded liability of approximately \$36.8 million and is scheduled to be depleted of all assets in 2022 unless additional funds are appropriated by the General Assembly.

AGENCY NAME:	State Treasurer's Office		
AGENCY CODE:	E16	SECTION:	98

Risk Assessment and Mitigation Strategies

The State Treasurer's Office has identified potential negative impacts on the State and public that would result if the Agency's goals and objectives were not met. These items are identified below by division.

Treasury Management. Without accurate and timely recording, monitoring, and reporting of all cash activity, assurance of accurate payroll and vendor payments would be compromised. Increased focus on accounting controls, enhanced reconciliation practices, and improved reporting and monitoring of all cash activity will ensure that a due accounting is made of all monies deposited within the Treasury to avoid negative impacts on state employees, customers, and vendors.

Banking. Without enhanced banking security measures, fraud may potentially increase. Inaccuracy in the State's banking data could lead to inaccurate decision-making for State agencies. Bank-provided fraud detection tools will be utilized by all bank partners to deter fraud and protect funds on deposit with the State Treasurer's Office for all qualified public depositories.

Investment Management. If the Investment Management Division was not able to obtain the best returns possible within the prescribed parameters, the State would ultimately receive less investment income, which would negatively impact the General Fund. Within the appropriate risk and statutory parameters, the State Treasurer's Office reviews investment strategy and portfolio performance to identify opportunities for improvement and strives to meet or exceed applicable benchmarks in order to obtain optimal returns.

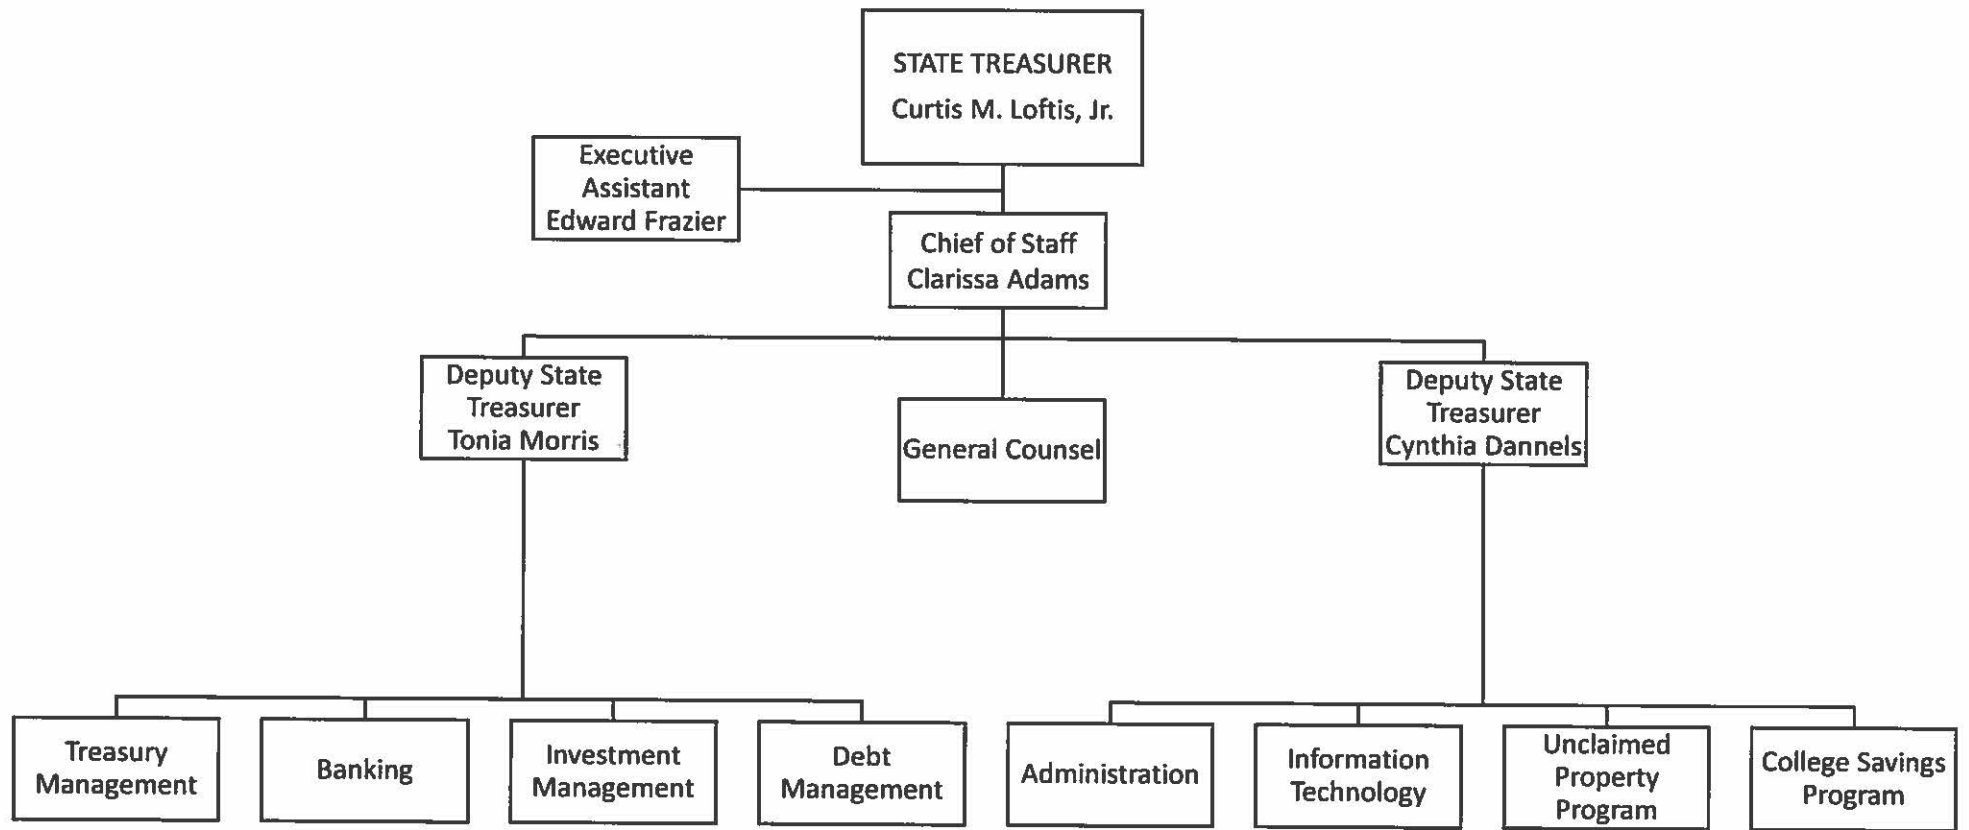

Debt Management. Without effective management of State debts, higher interest rates could occur and result in increased borrowing costs. The State Treasurer's Office secures greater market exposure of State debts in an effort to minimize the borrowing cost for each debt issuance.

Unclaimed Property Program. If holder companies' compliance with reporting unclaimed property and the general public's awareness of the Program were not increased, fewer funds could be collected and returned to the rightful owners. Additionally, the availability of funds eligible to be transferred to the General Fund would be reduced. The State Treasurer's Office utilizes outreach efforts to media outlets, community organizations, and holder companies to increase awareness of the Program.

Future Scholar College Savings Program. Fewer college savings accounts could reduce the amount of savings for education and increase debt required to attend college among South Carolina residents. The State Treasurer's Office implements strategic marketing initiatives to increase awareness and utilization of the Future Scholar program.

Tuition Prepayment Program. The Program has been operating with an actuarial deficit since 2011 and is projected to run out of assets in the Fiscal Year beginning on July 1, 2022 unless remedial actions are taken by the General Assembly.

Any requests that the State Treasurer's Office had of the General Assembly to help resolve these potential risks were communicated in recent Legislative Oversight Committee hearings. At this time, there are no additional requests for assistance to the General Assembly from the State Treasurer's Office.
